

JobPortal

A Full-Stack MERN Job Portal with AI

JobPortal is a modern web application that connects **job seekers** with **recruiters**. Job seekers can search, filter, and apply to jobs and get an **AI Smart Match** score for any role, while recruiters can post jobs, manage companies (with AI auto-detected brand logos), and review applicants with AI-assisted match scoring and direct contact details.

Frontend	React 19, Vite, Redux Toolkit, React Router, Tailwind CSS, Axios
Backend	Node.js, Express, MongoDB (Mongoose), JWT auth, Multer, Cloudinary
AI & APIs	Groq (LLaMA 3.3 70B) for skill matching, logo.dev for company logos
Deployment	Vercel (frontend), Render (backend), MongoDB Atlas (database)

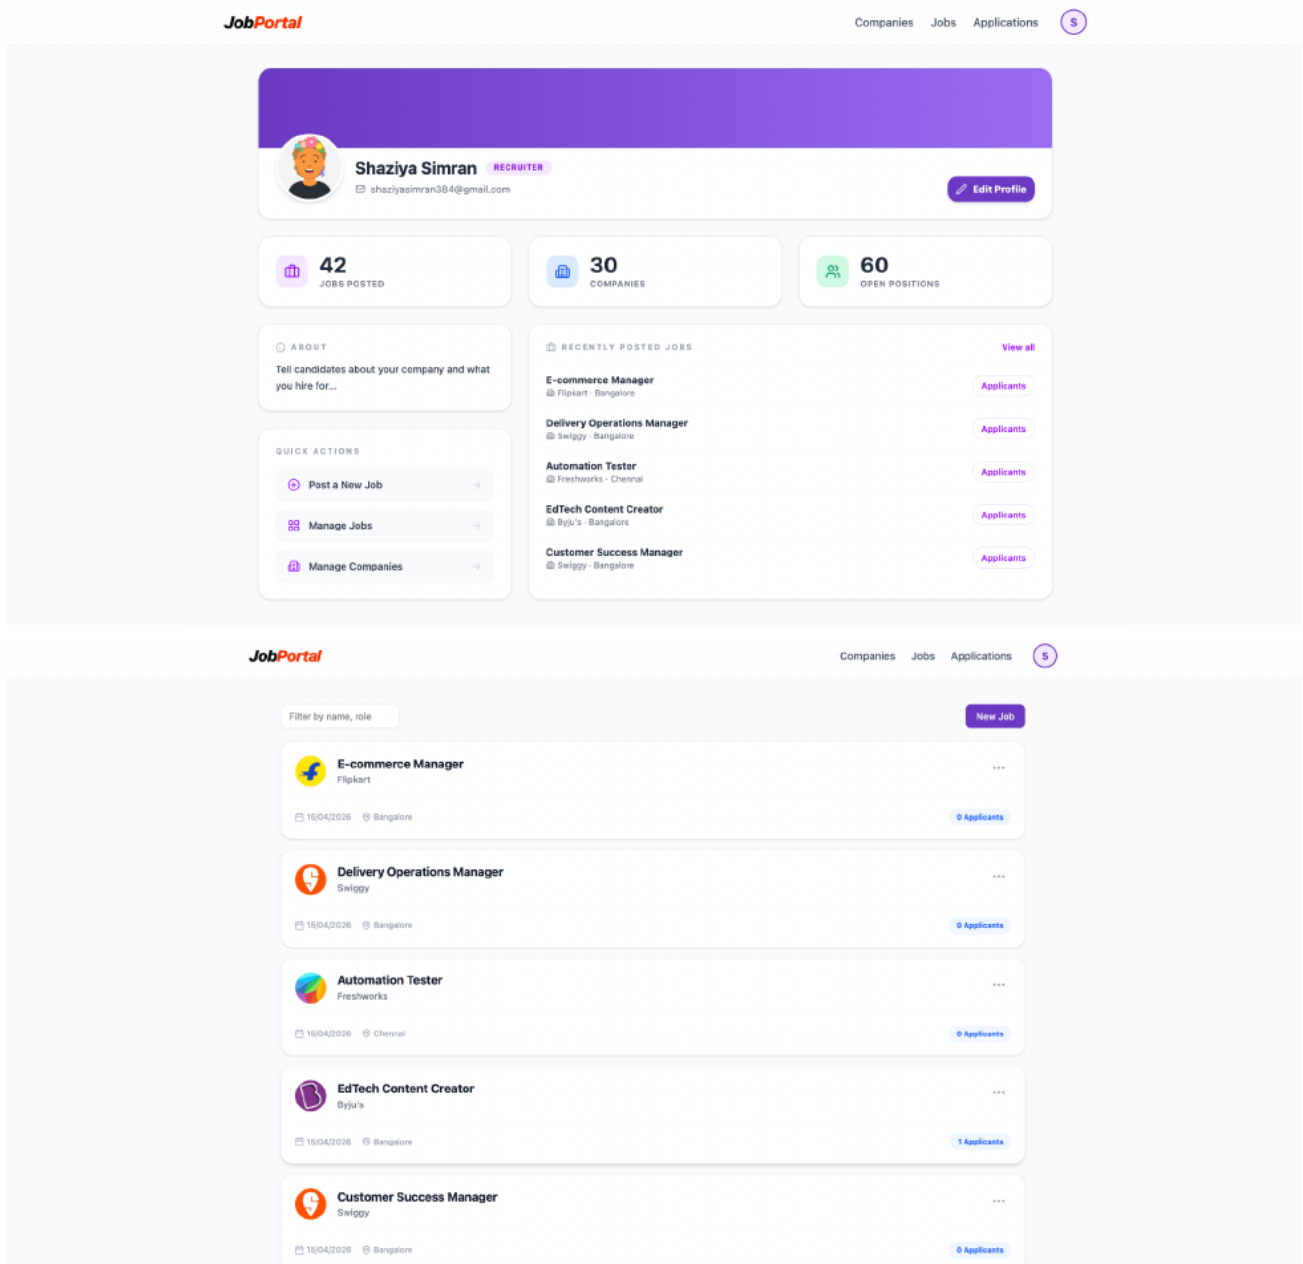

Screens & Features

1. Recruiter Dashboard / Profile

The recruiter's home base. A gradient profile header shows the recruiter (Shaziya Simran) with live stats — **42 Jobs Posted**, **30 Companies**, **60 Open Positions**. Below are an About section, **Quick Actions** (Post a New Job, Manage Jobs, Manage Companies), and a list of recently posted jobs each with an Applicants shortcut.

2. Manage Jobs

A list of every job the recruiter has posted. Each row shows the **real company logo**, job title, company, location, posting date, and live applicant count, plus a **New Job** button.

3. All Applications

A single dashboard of every candidate who applied across all of the recruiter's jobs. It shows the candidate's name, **clickable email and phone** (to contact directly), role, company, the **AI Match score**, resume link, applied date, and Accept / Reject actions — with a search box.

4. Manage Companies

All companies the recruiter manages, each displayed with its **AI-auto-detected brand logo** (Tech Mahindra, Unacademy, Nykaa, Microsoft, Swiggy, Zomato, and more), location, and date.

	Amazon	Hyderabad	2026-04-13	...

5. Account Menu

The profile dropdown available from the navbar, giving quick access to **View Profile** and **Logout**.

6. Home / Hero

The public landing page — "Search, Apply & Get Your Dream Jobs" — with a prominent search bar, quick category filters (Frontend, Backend, Data Science...), and a **Latest & Top Job Openings** showcase.

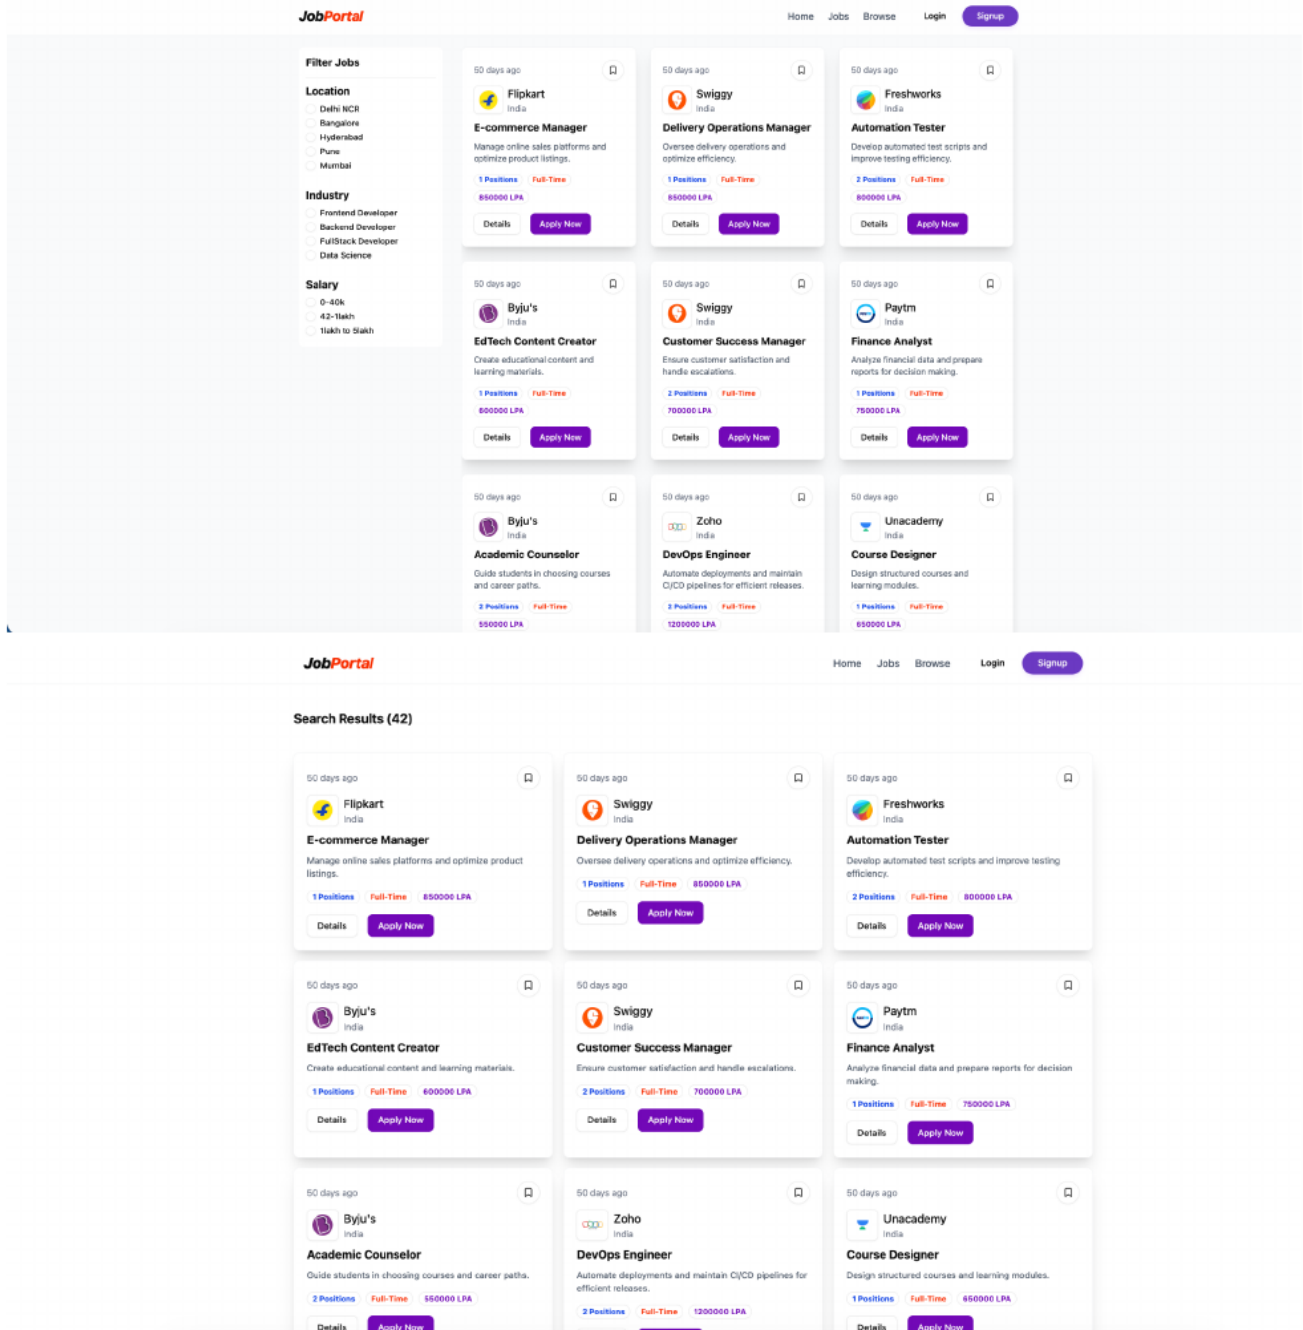

7. Browse Jobs (Filters)

The jobs page with a sidebar of **filters** — Location, Industry, and Salary — alongside card-based job listings, each with Details and Apply Now actions.

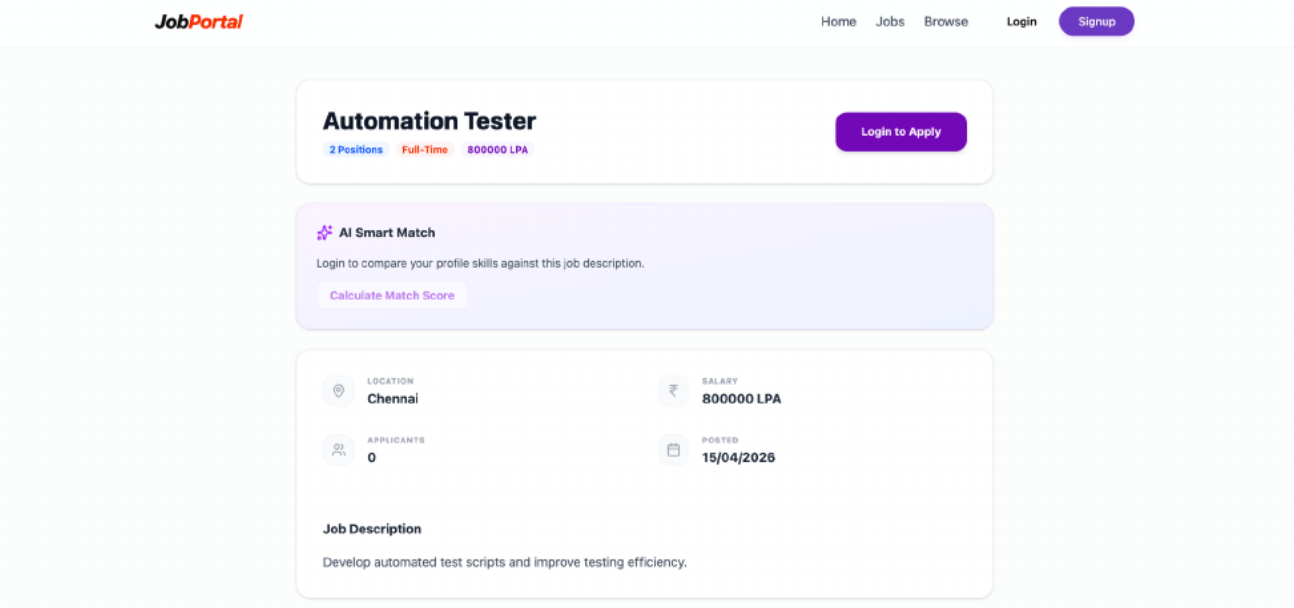

8. Search Results

The Browse view showing all matching jobs (e.g. **42 results**) as cards with company logo, role, description, positions, type, and salary.

9. Job Description + AI Smart Match

A single job's full details — location, salary, number of positions, posted date, and description. The highlighted **AI Smart Match** panel lets a logged-in user **Calculate Match Score** to compare their profile skills against the job description.

Screenshot — page 5

10. Login

The login screen with email and password, a password-visibility toggle, and a **role selector** (Jobseeker / Recruiter).

11. Create Account (Signup)

Registration with Full Name, Email, Phone Number, Password, role selection, and a **profile-picture upload**.

The image displays two screenshots of the JobPortal web application interface.

Top Screenshot: Login Form

The top screenshot shows the Login form. The header includes the JobPortal logo and navigation links: Home, Jobs, Browse, Login, and a Signup button. The Login form is centered and contains the following fields:

- Email:** A text input field with the placeholder text "example@gmail.com".
- Password:** A text input field with the placeholder text "password" and a password visibility toggle icon.
- Role Selection:** Two radio buttons labeled "Jobseeker" and "Recruiter".
- Login Button:** A purple button labeled "Login".
- Link:** A link labeled "Don't have an account? Signup".

Bottom Screenshot: Create Account Form

The bottom screenshot shows the Create Account form. The header is identical to the top screenshot. The Create Account form is centered and contains the following fields:

- Full Name:** A text input field with the placeholder text "John Doe".
- Email:** A text input field with the placeholder text "yash@gmail.com".
- Phone Number:** A text input field with the placeholder text "8080808080".
- Password:** A text input field with the placeholder text "password".
- Role Selection:** Two radio buttons labeled "Jobseeker" and "Recruiter".
- Profile Picture:** A file upload field with the placeholder text "Choose file No file chosen".
- Signup Button:** A purple button labeled "Signup".
- Link:** A link labeled "Already have an account? Login".
